Set on a quaint little island, this timeless, feel-good series captures the magic of childhood summers. Based on the original classic by Astrid Lindgren.

Welcome to Seacrow Island, a perfect place for summer vacations! When the holiday guests arrive, there's new faces to see and new friends to make. Like Melker and his children Pelle, Elliot, Ivan, and the eldest, Malin, with her own daughter Skrällan, who arrive from Stockholm. It's not long before their run-down rental cottage becomes a holiday paradise and starting point for many adventures (and mishaps) with their new friends: little Tjorven, the daughter of the local shop owners, and her big dog Båtsman; Stina, who always spends the summer at her grandma's; and the grumpy neighbor, Uffe, who only cares about mowing his lawn. But when Uffe wants to sell the cottage, everyone pulls together so Melker and his kids can come back for another memorable summer.

The legendary Astrid Lindgren cult classic returns - remade with heart, care, and timeless magic that still feels wonderfully timely.

An unflinching and empathetic look at teens' mental health, their depths of despair, and the glimmer of hope that friendship can be.

16-year-old Greta is haunted by a tragic accident that claimed her sister's life – an accident she believes was her fault. Wracked with guilt and unable to cope, she ends up in a psychiatric ward, feeling utterly alone. But she's not. There's Alireza, who struggles with a crushing depression; Michelle, who turns her pain to self-harm; and Frederick, whose rage simmers just beneath the surface. Under the care of Dr. Kim and her dedicated team, these teens begin a difficult but hopeful journey towards healing. Through therapy and shared experiences, bonds form. Together, they cry, clash, laugh, and sometimes lash out. In the end though, there might be a way for them to just feel a little more... stable-ish.

1992. David and his friends are three teenaged pals who call themselves "The Scamps". They're at summer camp to learn English. Yeah, right, more like anything BUT English! This summer, it's all about exploring life and embarking on new adventures. Especially romantic ones, which are always the most important adventures when you're fifteen. Oh, and there'll also be lots of singing and dancing – taking them to that elusive place called your own imagination, and sometimes even...to Mexico! Why? SKAM - The cult series for teens all over the globe

Having started as a low-budget Norwegian web series, SKAM broke all viewership records in its home country as well as in Denmark and Sweden. The show quickly built up an active international fanbase on social media and repeatedly made headlines all over the globe for its popularity surge. Within just three years, the critically acclaimed and multi-awarded web series has also spawned several successful international remakes.

Eva has just started high school. Apparently, she has no-one to rely on, other than her boyfriend Jonas and her best friend Isak. Eva feels lonely but decides to take responsibility for her life. She wants to seek out other venues and people that can offer her new impulses and might even lead to new friendships. Yet she faces questions like who she really is and how far she would be

willing to go on account of other people before she compromises her own values. Each season features a different main character, and it is their story and their perspective that the narrative tracks. We follow the girls and boys through heartbreak, partying and all the challenges young people face as they begin high school and start the last chapter before finally entering adulthood.

SKAM is a drama series dismantling taboos and speaking from the heart of its 16 to 20-year-old target audience. The story takes place in real time and is published daily through web-specific storytelling elements, texts, images and grabs, as well as live-action on SKAM websites/apps, generating heavy online traffic in each broadcasting territory. Every week, a summary episode containing all the daily episodes is published online and on linear TV.

"Norwegian TV drama SKAM has been a hit with teens and their parents!"

The Guardian

"A racy, emotionally intense, true-to-life Norwegian web and television series."

The New York Times

"A perfect example of what truly democratic TV should look like in the 21st century."

The Huffington Post

"It might also be one of the best TV shows about high school ever made."
