A veterinary procedural drama with heart: Dr. Kate Barton and her family-led team save the lives of animals in the beautiful countryside. Juggling love and hardship, Kate must learn to heal herself along the way.

BARTON VET

Six months after her father's death, Dr. Kate Barton finds herself stretched thin after taking over his country vet clinic. Luckily, her family is right in there with her: her fierce yet loving Clinic Manager mother, Mirabel, her empathetic brother with Down Syndrome, David, and her fun-loving found-family member, Vet Tech Ollie. But despite all they do to keep the business going, it soon becomes evident that the practice is in great financial distress. Kate shoulders the brunt of the responsibility, and her job is made tougher as one of the only professional women in this rural enclave. Amid all this, Kate must train up a new vet, navigate the unexpected arrival of a young woman full of spirit but lacking direction, and explore a – potentially messy – renewed chance at love. Kate's father was a legend in the area. Now Kate not only finds his vet boots tough to fill, but also his role as the rock of the Barton family.
